# TECHNICAL HANDBOOK

ICE HOCKEY MEN

JANUARY 2017

ALMATY 2017

Dear Participants,

On behalf of the International University Sports Federation, it is both a pleasure and an honour for me to welcome you to the 28<sup>th</sup> Winter Universiade from 29 January to 8 February, 2017 in Almaty, Kazakhstan.

The technical handbooks probably belong to some of the most useful documents during the entire period of the Universiade. That is why so much effort is put into their preparation. Those manuals are always reflecting the amount of work that has been done to prepare such

multi-sport events. The investments in terms of infrastructure and sport facilities are just amazing and we all hope that you will enjoy the remarkable competition conditions that Kazakhstan and the city of Almaty created for all participants.

We therefore would like to thank all parties that worked in very close co-operation with the Organising Committee of the Almaty Winter Universiade and the Student Sports Federation of the Republic of Kazakhstan.

I would like to underline the efforts made throughout the last month by the Technical Delegates of the FISU International Technical Committee for the Winter Universiade. They have worked continuously in close co-operation with the competition managers of the Organising Committee and the International Sports Federations to allow the students to compete in the best possible conditions in a country, which will be showing the magic of winter sports to the world.

We look forward to your participation and we are sure that you will find in this manual all the necessary information that will help you to participate in the competitions in a smooth and proper manner.

Together with the entire FISU Family, I wish you all the best for a most successful 28<sup>th</sup> Winter Universiade.

**Oleg Matytsin,**  
**FISU President**

Dear Friends,

It is a pleasure and honour for Almaty to host the 28<sup>th</sup> Winter Universiade 2017, which has been one of the largest and prestigious multi-sporting event in the world for more than a half a century. We are pleased to extend a warm welcome to the representatives of all the countries or regions participating in the 28<sup>th</sup> Winter Universiade.

It is the first time for Almaty to host the Winter Universiade and we will make everything possible to hold the competitions at the highest level.

The 28<sup>th</sup> Winter Universiade is the large image project for Almaty, and for our multinational country. As you know, our country has a successful experience in organizing international projects, forums, and we ensure making our best to hold this Winter Games.

We would like to highlight the efforts of the International University Sports Federation (FISU) to promote sports values and encourage sports practice in harmony with university spirit. The slogan of the Universiade is "Spread your wings!" It is hoped that it will encourage the youth participating in the competitions to succeed. We are in favour of promoting sports values, along with encouraging friendship, fraternity, fair-play and cooperation between students who will one day have responsibility and even hold key positions in politics, economics, industry and culture.

We are ready to welcome our guests and participants of the 28<sup>th</sup> Winter Universiade. Three new venues were built for this big event, which are the Athletes' Village for 5,000 people, Almaty Arena with 12,000 seats, and Halyk Arena with a 3,000 seating capacity.

As the successor to the Asian Games Universiade inherited the sports facilities with modern equipment, developed infrastructure and updated cultural centers.

In 2011, Almaty hosted the 7<sup>th</sup> Asian Winter Games. For this event, the "Sunkar" International Ski-Jumping Complex and the "Alatau" Cross-Country Skiing and Biathlon Stadium were built. Furthermore, the "Medeu" High-Mountain Ice Rink, the "Shymbulak" Ski Resort, and the "Baluan Sholak" Sports Palace were modernized. All these venues are essential elements of the sports infrastructure of Kazakhstan.

We would like to assure that your stay in Almaty will be comfortable and exciting, your expectations will be met and you will come home enriched, with new experience and friendships.

We sincerely believe that the 28<sup>th</sup> Winter Universiade which became popular around the world will unite a set of the countries on this sport event. The cultural content, the scope and the level of organization of the event will allow you to immerse in the rich history, national traditions, and enjoy the special flavor of our country.

**Imangali Tasmagambetov,**  
**OC President**

The programme includes the following events:

At the first General Technical Meeting, the Head of Delegation or his/her representative shall confirm and sign the official list of competitors.

### 5.4.1. PROTEST AND APPEAL

Any protest of a sport or disciplinary nature must reach the Jury or other proper authority according to the regulations laid down by the IIHF. Such protest must be accompanied by a deposit, the amount of which is set in line with the ISF regulations, if not otherwise specified in the technical regulations of concerned sport.

Any sport disciplinary situation, which cannot be satisfactorily resolved by the sport technical committees and the sport specific disciplinary regulations, will be reported to the FISU Disciplinary Committee for further action to be taken.

Where appropriate, a report will be sent to the ISF concerned Committee.

Each Head of Delegation or his/her deputies are authorized to lodge an appeal against the decision of the Jury. This appeal must be submitted in writing to the Jury of Appeal or proper authority in accordance with the regulation of the appropriate ISF.

## 5.5. COMPETITION FORMAT

### 5.5.1. ENTRY

Twelve Countries have qualified to enter teams and participate in accordance with FISU WU2017 Regulations (Art. 11.6.1). The Teams Draw has been conducted during the HOD Meeting on 18 September 2016 in Almaty (KAZ).

Three groups of four teams each:

A	B	C
KAZ	CAN	RUS
CZE	SVK	JPN
SWE	USA	KOR
CHN	GBR	LAT

### 5.5.2. NUMBER OF PLAYERS ON THE GAME SHEET

Teams must enter on the game sheet and dress a minimum of 15 and maximum of 20 players plus 2 goalkeepers per game. The team list for each game shall be submitted to the official scorer (or representatives) not later than two hours before the start of each game.

In case, the goalkeeper is injured in the course of a game and is unable to continue playing the game, then the third goalkeeper must dress and take his place and will, accordingly, enter on the game sheet. Once replaced the goalkeeper may not return to the game.

### 5.5.3. FORMAT

The format of the Men's Tournament comprises:

1. PRELIMINARY ROUND played in three groups (18 games) from which 8 teams will qualify to the quarter-finals, the last 4 teams will play the classification games.
2. QUARTER FINAL ROUND (4 games)
3. SEMI-FINAL ROUND (2 games)
4. MEDAL ROUND (2 games) – Bronze Medal Game and Gold Medal Game
5. CLASSIFICATION GAMES (6 games) to determine the final ranking for places 9 to 12.

A game consists of three periods of 20 minutes (with two intermissions above 15 minutes, if not otherwise decided in the Directorate) plus overtime and a penalty-shot shootout if required.

The teams will play a round robin within their group.

At the conclusion of the PRELIMINARY ROUND all 12 teams will be re-ranked D1 to D12 according to the following criteria:

The teams finishing first their group will be ranked D1 to D3

- By the highest number of points, and if still tied
- By the better goal difference, and if still tied
- By the highest number of goal scored for, and if still tied
- By the highest seeding on entry

The remaining teams will be ranked D4 to D12

- By the highest number of points, and if still tied
- By the better goal difference, and if still tied
- By the highest number of goal scored for, and if still tied
- By the highest seeding on entry

For all games, points shall be awarded as follows:

- 3 points for the winning team at the conclusion of regulation time
- 1 point for both teams at the conclusion of regulation time if the game is tied
- An additional point earned for the team winning the game in a 5-minute overtime period, or the Penalty-Shot Shootout Procedure if the teams are still tied following conclusion of the overtime period
- 0 points for the team losing the game in regulation time

#### **5.5.4. TIE BREAKING SYSTEM (2017 IIHF SPORT REGULATIONS)**

The tie-breaking system for two teams with the same number of points in a standing will be the game between the two teams, the winner of the game taking precedence.

Due to the fact that the three-point system does not allow a game to end in a tie, then the following tie breaking procedure is applicable when three or more teams are tied in points in a Championship standing.

Should three or more teams be tied on points, then a tie breaking formula will be applied as follows, creating a sub-group amongst the tied teams. This process will continue until only two or none of the teams remain tied. In the case of two remaining tied teams, the game between the two would then be the determining tie-breaker as the game could not end as a tie. In the case of none of the teams being tied, the criteria specified in the following respective step applies.

Step 1:

Taking into consideration the games between each of the tied teams, a sub-group is created applying the points awarded in the direct games amongst the tied teams from which the teams are then ranked accordingly.

**Step 2:**

Should three or more teams still remain tied in points then the better goal difference in the direct games amongst the tied teams will be decisive.

**Step 3:**

Should three or more teams still remain tied in points and goal difference then the highest number of goals scored by these teams in their direct games will be decisive

**Step 4:**

Should three or more teams still remain tied in points, goal difference and goals scored then the results between each of the three teams and the closest best-ranked team outside the sub- group will be applied. In this case the tied team with the best result (1. points, 2. goal difference, 3. more goals scored) against the closest best ranked-team will take precedence

**Step 5:**

Should the teams still remain tied, then the results between each of the three teams and the next highest best-ranked team outside the sub-group will be applied.

**Step 6:**

Should the teams still remain tied after these five steps have been exercised then Sport considerations will be applied and the teams will be ranked by their positions coming into the Championship (i.e. seeding).

## **5.5.5. OVERTIME OPERATIONS (2017 IIHF SPORT REGULATIONS)**

### **Overtime – Operations for Preliminary Round Games and Classification Games**

If at the end of the three (3) regular twenty (20) minutes periods, the two playing teams are tied, the teams will then play a 'sudden death' overtime period of not more than five (5) minutes, immediately after an intermission of 90 seconds, with the team scoring first declared the winner. The overtime period shall be played with each team at a numerical strength of three (3) skaters and one (1) goaltender.

The overtime period will commence and the clock will be reset to 5:00 minutes and the overtime period will begin.

The players will remain at their respective player benches during the 90 second intermission.

Goaltenders must go to their respective players' benches during this rest period, however, penalized players must remain on the penalty bench. Should a penalized player exit the penalty bench, he shall be returned immediately

by the game officials with no additional penalty being assessed, unless he commits an infraction of any other rule. Teams are not permitted to return to the dressing room during this time.

In the overtime period, the teams must change ends, defending the same end-zone as they did in the second period.

#### Penalties:

When regulation time ends and the teams are 5 on 3, teams will start the overtime period with 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3 or 3 on 3, as appropriate.

When regulation time ends and teams are 4 on 4 teams will start overtime 3 on 3.

If at the end of regulation time teams are 3 on 3, overtime starts 3 on 3. Once player strength reaches 4 on 4, 5 on 4 or 5 on 5, at the next stoppage player strength is adjusted to 3 on 3 or 4 on 3 as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play 4 on 3. If both teams are penalized with minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3 on 3.

In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted five (5) skaters.

At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4 on 3 or 3 on 3, as appropriate.

#### **Overtime – Operations for a Playoff Game or for a Bronze Medal Game:**

If at the end of the three (3) regular twenty (20) minutes periods in a Playoff Game and or in a Bronze Medal Game and the two playing teams are tied, the teams will then play a 'sudden death' overtime period of not more than 10 minutes, immediately after an intermission of 90 seconds, with the team scoring first declared the winner. The overtime period shall be played with each team at a numerical strength of four (4) skaters and one (1) goaltender.

The overtime period will commence and the clock will be reset to 10:00 minutes and the overtime period will begin.

The players will remain at their respective player benches during the 90 second intermission.

Goaltenders must go to their respective players' benches during this rest period, however, penalized players must remain on the penalty bench. Should a penalized player exit the penalty bench, he shall be returned immediately by the game officials with no additional penalty being assessed, unless he commits an infraction of any other rule. Teams are not permitted to return to the dressing room during this time.

In the all overtime period, the teams must change ends, defending the same end-zone as they did in the second period.

Penalties:

When regulation time ends and the teams are 5 on 3, teams will start the overtime period with 5 on 3. Once player strength reaches 5 on 4 or 5 on 5, at the next stoppage of play, player strength is adjusted to 4 on 3 or 4 on 4, as appropriate.

When regulation time ends and teams are 4 on 4 teams will start overtime 3 on 3.

If at the end of regulation time teams are 3 on 3, overtime starts 3 on 3. Once player strength reaches 4 on 4, 5 on 4 or 5 on 5, at the next stoppage player strength is adjusted to 3 on 3, 4 on 3 or 4 on 4 as appropriate.

At no time will a team have less than three players on the ice. This may require a fourth and/or fifth skater to be added in the event penalties are assessed.

If a team is penalized in overtime, teams play 4 on 3. If both teams are penalized with minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 4 on 4.

In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted five (5) skaters.

At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4 on 3 or 4 on 4, as appropriate.

### **Overtime – Operations for the Gold Medal Game:**

If at the end of the three (3) regular twenty (20) minutes periods in a Gold Medal Game of a top category championship and the two playing teams are tied, the teams will then play a 'sudden death' overtime period of not more than 20 minutes with the team scoring first declared the winner. The

overtime period shall be played with each team at a numerical strength of five (5) skaters and one (1) goaltender.

The overtime period will commence following an ice resurfacing during a 15 minute intermission where the teams will return to their dressing room before the start of the overtime period. The overtime period will start with the same on ice strength as the third period finished with all assessed penalties in force. In the overtime period, the teams must change ends, defending the same end-zone as they did in the second period.

#### **5.5.6. PENALTY-SHOT SHOOTOUT PROCEDURE (2017 IIHF SPORT REGULATIONS)**

If following the completion of regulation time in any WU game and the score of the game is tied, the teams will then play an overtime period with a maximum duration and number of players as specified in the IIHF Sport Regulations with the team scoring first declared the winner.

If no goal is scored in the overtime period then the IIHF Penalty-Shot Shootout Procedure will apply.

The following procedure will be utilized:

- Shots will be taken at both ends of the ice surface. The 14-meter wide longitudinal centre section of the rink, between the Face-Off Spots in the neutral and end zones, will be dry- scraped by the ice-resurfacing machine prior to the Penalty-Shot Shootout during the time required to organize the program accordingly.
- The procedure will begin with three (3) different shooters from each in the Preliminary Round Games and Classification Round or five (5) shooters in a playoff, Bronze Medal or Gold Medal Game, taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Penalty-Shot Shootout will be the four goalkeepers and all players from both teams listed on the official game sheet except as specified in article 3 below.
- Any player whose penalty had not been completed when the overtime period ended is not eligible to be one of the players selected to take the shots and must remain in the penalty box or in the dressing room. Also players serving penalties imposed during the Penalty- Shot Shootout must remain in the penalty box or in the dressing room until the end of the procedure.
- The Referee will call the two captains to the Referee Crease and flip a coin to determine which team takes the first shot. The winner of the coin toss will have the choice whether his team will shoot first or second.
- The goalkeepers shall defend the same goal as in the overtime period and may remain at their goal creases while the opposing team is taking a shot.

- The goalkeepers from each team may be changed after each shot.
- The shots will be taken in accordance with Rule 63 of the IIHF Official Rule Book.
- The players of both teams will take the shots alternately until a decisive goal is scored. The remaining shots will not be taken.
- If the result is still tied after all shots by each team the procedure shall continue with a tie- break shoot-out by one player of each team, with the same or new players with the other team starting to take the tie-break shots. The same player can also be used for each shot by a team in the tie-break shoot-out. The game shall be finished as soon as a duel of two players brings the decisive result.
- The Official Scorekeeper will record all shots taken, indicating the players, goalkeepers and goals scored.
- Only the decisive goal will count in the result of the game. It shall be credited to the player who scored and to the goalkeeper concerned.
- If a team declines to participate in the Penalty-Shot Shootout, the game will be declared as a loss for that team and the other team will be awarded 3 points for a win. If a player declines to take a shot it will be declared «no score» for his team.

### 5.5.7. VIDEO GOAL JUDGE SYSTEM OPERATING PROCEDURES (2017 IIHF SPORT REGULATIONS)

The use of the Video Replay of disputed goals is approved by the IIHF and is included in the Rule Book. All available television pictures must be provided and used by the Video Goal Judge for this system.

In IIHF competitions where an existing and operational Video Goal Judge System is installed in an arena being used by an organizer, the system can only be used should all of the following conditions are fulfilled:

- A Video Goal Judge Booth with equipment and technology conforming to IIHF specifications is available for operations during all games of the competition
- The Video Goal Judge System must be used in all scheduled games at the expense of the Organizer
- Technical staff assigned and on site for operations in each and every game at the expense of the Organizer
- The event has a second IIHF Referee Supervisor assigned to operate the system for all games

Should any of these conditions not be available or provided for all games of the IIHF Championship in question then the system cannot be used for the competition.

#### **Procedure:**

- When the Referee requests a video review of a disputed goal, the referee will contact the Video Goal Judge from the official scorekeeper's bench using a telephone system which has been installed for this purpose.

- When the Video Goal Judge requests a review, the Video Goal Judge will contact the official scorekeepers bench using the telephone system during the first stoppage of play after the incident has occurred in order to inform the Referee that the play is under video review.
- When a video review is requested by either the Referee or by the Video Goal Judge, the public address announcer will make the following announcement. "The play is being reviewed."
- If the video review is inconclusive then the Video Goal Judge will report this to the Referee who will then make the final decision.
- Following the review and the subsequent decision, one of the following announcements is to be made:

"A goal has been scored at ....."  
(time)

"No goal has been scored because ....."  
(reason)

- A team does not have the authority to request a video review of a play.
- If the puck enters the net and play is stopped, the Referee or the Video Goal Judge are to ask for a review during this stoppage of play. If there is no review during this stoppage of play then the result is final and no review of the play will be permitted at a later time.
- If the puck enters the net and play was to continue, then the review would take place during the first stoppage of play following the incident. If no review is performed during this first stoppage of play then no review of the play will be permitted at a later time.
- When a Referee or a Video Goal Judge indicate that there is to be a video review, then all players must go to their respective team benches.
- A video review of the play may be called even though the first stoppage of play signals the end of a period or the end of a game.

### **Situation 1**

Team 'A' scores an apparent goal that is not seen by the on ice officials and play continues. During the first stoppage of play following this situation the Video Goal Judge will review the play. If the goal is confirmed by the video review, the goal is awarded and the game clock (including penalty time, if applicable) is re-set to the time that the goal was scored. If the goal is not confirmed by video review, no adjustment is required to the game clock.

### **Situation 2**

Team 'A' scores an apparent goal that is not seen by the on ice officials and play continues with a goal being scored by Team 'B' at the other end causing a stoppage of play. During the stoppage of play, the apparent goal by Team 'A' will be reviewed by the Video Goal Judge. If the apparent goal by Team 'A' is confirmed by the video review, the goal is awarded and the game clock (including penalty time, if applicable) is re-set to the time that the goal was scored by Team 'A'. The goal scored by Team 'B' is washed out.

If the video review confirms that no goal was scored by Team 'A', the goal scored by Team 'B' will be reviewed and if the video review confirms the goal,

then the goal will be awarded to Team 'B' and no adjustment to the game clock is necessary.

### Situation 3

Team 'A' scores and apparent goal that is not seen by the on ice officials and play continues with a second goal being scored by Team 'A' that brings about a stoppage of play. During the stoppage the apparent goal scored by Team 'A' will be reviewed by the Video Goal Judge. If the apparent goal by Team 'A' is confirmed by the video review, the goal is awarded and the game clock (including penalty time, if applicable) is re-set to the time that the apparent goal was scored by Team 'A'.

### Video Goal Judge Guidelines for Referees:

1. Please be aware of the procedures in any of the above situations for the assessment of delayed penalties as explained in the IIHF Rule Book.
2. When an in-the-net camera is used, be aware of the fact that the puck may hit the camera and come out of the net quickly.
3. Should the situation arise where the game clock has to be reset following a video review of a play, allow the timekeeper sufficient time to reset the correct time on the game clock.
4. Following a goal on televised games please be aware of the Goal Break Regulation, allowing the broadcaster time to show replays of the goal.
5. If a penalised player comes out of the penalty box and the clock has to be reset following a Video Goal Judge review, then it may be necessary that the player return to the penalty box to serve the balance of the penalty time.
6. Should the first stoppage of play be the end of a period or the end of a game, the questionable play must be reviewed before teams leave the ice if a video replay is requested by the Referee or by the Video Goal Judge
